

# PATCHING CHART

I NEED TO COLOUR IN \_ PATCHES EACH DAY

## YOUR VERY SPECIAL PATCHING CHART

1. Grab your coloured pencils, markers or crayons and write your name on the top of the chart - because it's YOUR chart!

2. If you want to, you can decorate your chart by colouring in, painting, using stickers or other fun crafty items. Go nuts!

3. Write down how many hours of patching you need to do each day. That's how many little patches you'll colour in.

3. Each day colour in a patch for each hour of patching that you do.

4. If you reach your daily goal, tick or pop a special sticker or star in the box.
